

# Clinton Community Schools

## Preparation and Planning for a Crisis

### Prior to and including this School Year

Each year meet in the summer with other communities and school districts  
Police, Fire, Court Officials, Director of Emergency Preparedness, School Officials  
Increased communication between county and local school districts  
National Oceanic and Atmospheric Administration (NOAA) Weather Radio in five buildings in the district  
Lightning Detector  
Attendance at various Safety conferences and seminars  
Contracted for School Site Survey  
Emergency Procedure Handbook for Staff  
Installation of Security Cameras

### Recent Safety Review and Upgrading

Increased training and attention to the possibility of intruders

We continue to have meetings with:

- ✓ Police
- ✓ Fire
- ✓ Village
- ✓ District
  - Administrators
  - Technology Administrator
  - Custodial/Maintenance Supervisor
  - Transportation Supervisor
  - The District has both basic and back-up methods for calling 911

Training of Students and Staff

Clinton Village Police have been provided with:

Master Keys for each building  
Aerial and Floor Plans of each building  
School District Emergency Protocols  
District Personnel Emergency contact information

Individuals are required to have Identification Badges:

School personnel  
Substitute teachers produce identification before being provided with identification badge  
A visitor to buildings is given a badge after he/she provide something from the individual (keys, driver license, credit card)

Cameras at the main entrance to and in various locations in each building

Communication Prior to and During a Crisis  
Instant Notification System – AlertNow
